SKILLS

Python
Javascript
SQL
Data Structure

AREA OF INTEREST

Data Science and
Application Development
AI and ML

EDUCATION

VELAMMAL ENGINEERING COLLEGE

Btech Artificial Intelligence and Data Science (2020-2024).
CGPA : 89%

LANGUAGES

English
Tamil

PROFILE

Equipped with comprehensive knowledge in software development methodologies, programming languages, and IT systems. Ability to analyze complex problems and develop innovative solution. Eager to leverage theoretical knowledge and practical experience to contribute to dynamic projects in the IT industry.

ACADEMIC PROJECTS

HUMAN DETECTION AND COUNTING

A system that can detect and count the number of persons in a video, image and also track the live activity of people by accessing a webcam. Detecting human beings accurately in a visual surveillance system is crucial for diverse application areas including abnormal event detection, congestion analysis, person identification and fall detection for elderly people.

AUGMENTED REALITY APPLICATION FOR MONUMENTS

Augmented Reality (AR) application focused on enhancing monument exploration. Create an immersive and educational experience for users visiting historical sites. Promote cultural heritage preservation and engagement through innovative technology.

CERTIFICATIONS

Data Science Internship – SmartKnower (27/01/23).
Google Data Analytics – Coursera (20/12/23).
AWS Foundation Certification – AWS (16/02/24).
National Conference on Artificial Intelligence and Data Science Bridging Innovation and Application (27/03/24)
Learnathon Certificate (30/12/22)
